❖ SUMMARY

Result-oriented B.Tech Information Technology student and MERN Stack Developer with hands-on experience building full-stack applications and AI-integrated solutions. Expert in React, Node.js, and MongoDB, with a strong foundation in Data Structures, Algorithms, and Cyber Security. Proven track record in enhancing system efficiency through AI research and software testing. Committed to developing scalable, secure, and user-centric web applications.

❖ INTERNSHIP EXPERIENCE

SimplifiIQ — AI Research Intern

📍 Dubai, UAE (Remote) | Nov 2025 – Present

Designed and implemented AI solutions as part of the core development team, focusing on system efficiency and reliability. Performed debugging, validation, and requirement analysis within the SDLC to deliver optimized application features.

TechVision Technologies — MERN Stack Development Intern

📍 Hosted by SRMS College | July 2025 – September 2025

Developed and deployed full-stack MERN applications, including the 'GreenCart' grocery system. Managed end-to-end development, implemented JWT authentication, and integrated Stripe API for secure payments. Collaborated via Git/GitHub to resolve technical issues and optimize deployment.

Shivsys Software Pvt. Ltd. — Software Engineer Trainee

📍 Remote | May 2025 – July 2025

Executed quality assurance (QA) by performing manual and automated testing, identifying and documenting bugs, and providing actionable enhancement suggestions to the development team to enhance product quality and reliability.

❖ PROJECTS

• **AI Virtual Assistant** | [MERN Stack \(MongoDB, Express.js, React, Node.js\)](#) | November, 2024

Built AI Virtual Assistant using the MERN stack, integrated with Gemini AI and Web Speech API for real-time voice interaction, JWT authentication, Cloudinary image uploads, and full deployment on Render — enabling smart speech-based responses, YouTube search, and personalized assistant customization.

• **Green Cart** | [MERN Stack \(MongoDB, Express.js, React, Node.js\)](#) | August, 2025

Developed an online grocery delivery platform with product browsing, shopping cart, and secure checkout to provide a convenient user experience.

• **Temple and Pilgrimage Crowd Management System** | [MERN Stack, AI](#) | December, 2025

Built a smart Temple and Pilgrimage Crowd Management System to optimize crowd movement and ensure pilgrim safety. The solution supports real-time monitoring, congestion alerts, and better resource allocation during high-traffic events.

❖ TECHNICAL SKILL

Frontend & Backend: HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, RESTful APIs.

Programming Languages: C, Python, Java, JavaScript.

Databases & Cloud: MongoDB, MySQL, Cloudinary, Deployment (Render, Vercel).

Core Competencies: Data Structures & Algorithms (DSA), Responsive Web Design, Object-Oriented Programming (OOP), JWT Authentication.

Tools and Processes: Git, GitHub, RESTful API Design.

❖ EDUCATION

Shri Ram Murti Smarak College of Engineering & Technology — Bareilly, UP

B-Tech in Information Technology (IT) | 81% | Oct 2022 – Present

Specialization in Cyber Security | 2023–Present

Jamuna Prasad Memorial Public School — Bareilly, UP

Senior Secondary (Class 12) | 76.4% | March 2021 – 2022

Jamuna Prasad Memorial Public School — Bareilly, UP

Secondary (Class 10) | 77% | March 2019 – 2020

❖ ACHIEVEMENTS

- Recipient of consecutive merit scholarships totaling **₹70,000** from SRMS Trust, awarded annually for maintaining consistent academic excellence across three years of study.
- Demonstrated advanced problem-solving capabilities by successfully resolving over 200 algorithmic challenges on GeeksforGeeks and LeetCode, focusing on optimized data structures and logic.

❖ CERTIFICATE

- **Software Testing** | NPTEL | Jan 2025 – Feb 2025
- **Artificial Intelligence** | Livewire, Bareilly | June 2024
- **Chatbot Development** | IBM | November 2024
- **Python Programming** | HackerRank | December 2024
- **Prompt Engineering for ChatGPT** | November 2024
